

# Fish Blocks (B) medium fish

Step 1

Step 2

Step 3

Step 4

Step 5

These directions were written by Michelle Boyd for the Bay Area Modern Quilt Guild May 2014 charity block. The fish blocks are 12 inches, finished. There are three different blocks. These directions are for block B, which has one medium fish.

pieces:

background

big triangles (B) - one square  $5 \frac{7}{8}$ .

small triangles (B) - one square  $3 \frac{3}{8}$ .

skinny rectangle (B) - one rectangle  $3 \times 8$ .

big rectangle (B) - one rectangle  $5 \times 12.5$ .

small squares (B) - two squares 3.

fabric for the fish

big triangles (B) - one square  $5 \frac{7}{8}$ .

small triangles (B) - one square  $3 \frac{3}{8}$ .

To make one block:

Step 1

Start with the  $5 \frac{7}{8}$  inch square of the background fabric and the fabric for the fish.

Draw a diagonal line on the back of one of the squares. Pin them right sides together.

Sew  $\frac{1}{4}$  inch on either side of the line. Cut on the line. Now you have two half square triangle units.

Step 2

Lay the two half square triangle units out so that the fabric for the fish makes a bigger triangle. Sew them together to make the fish body.

Step 3

Repeat Steps 1 and 2 with the small squares to make the tail section.

Step 4

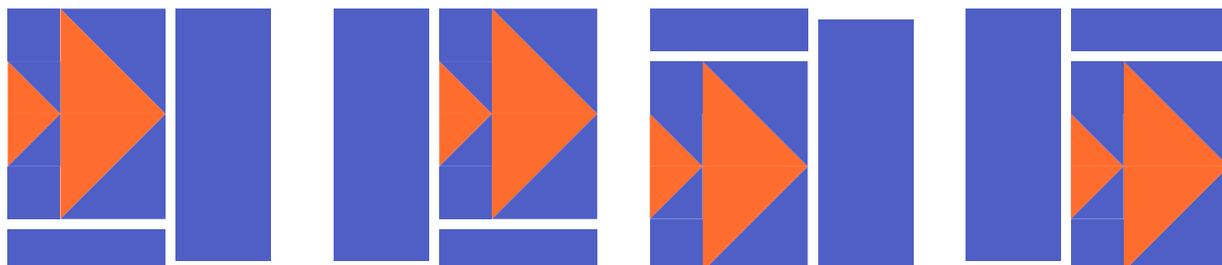

Sew one of the small background squares to each end of the tail section.

Step 5

Sew the tail piece to the back of the body piece, matching the center seams.

Step 6

Now you have some choice about how to configure this fish block. You can sew the skinny rectangle of background fabric either to the top or to the bottom of your fish section. Then you can sew the big rectangle to either the front or the back of the fish section. Notice that the fish can be made to swim to the left by rotating the whole block 180 degrees.

Step 6 (Choose one configuration)
